Major: Business Administration

College GPA: 4.00

### Activities:

- Mu Alpha Theta Member
- Distributive Education Clubs of America
- Volunteer: Chesapeake Animal Services Unit
- Year Round Employment: Nanny/ Babysitter and Pet Sitting Business

This will be the second time I'm receiving a scholarship from Wings Over America, and I couldn't be more grateful. I don't think many students realize how helpful a scholarship can be, no matter the amount. Working towards receiving a scholarship does take time and effort. Many students ask themselves if that time and effort is worth it because they may not even be granted one. I even asked myself the same question, but I have learned that setting aside the extra time and effort can pay off! With the help of the scholarships I have received (including this one) my college expenses have been dramatically reduced. I am now entering my final semester at Tidewater Community College and will soon be able to say that I have obtained my Associate's Degree and have remained out of debt. With the high cost of college expenses today, being able to say this is something I'm extremely proud of. As a recipient of this scholarship, I understand that none of this would be possible without the generous scholarship foundations and donors, so thank you!
