I am honored and humbled to be receiving a Wings Over America Scholarship. This will enable me to receive an excellent education without the burden of financial costs. This scholarship is supporting me in furthering both my academic and athletic career at Gettysburg College where I will be attending and playing softball. Given that I am a collegiate athlete, I will have a limited opportunity to work to help pay towards my tuition. This generous scholarship will allow me to focus on my athletics and academics while helping to reduce financial costs in the future. The support, memories, and life lessons of being a military child left a positive impact and shaped me into the young adult I am today. I plan on majoring in mathematics with a minor in business. Although I am not sure what my career may be in the future, I plan to give back to my community and help those in need. I am extremely grateful to have received this scholarship. Thank you to the donors who made this possible.
