

Wings Over America & Maritime Patrol Association Scholar

Tyler Pottenburgh

Jacksonville, FL

Florida State University

2021-2022: Freshman

Major: Sports Business

This scholarship means a lot to me for a few reasons. First, it serves as a form of recognition for the work I have done throughout high school. At Stanton College Preparatory School, we are given college level workloads in order to prepare us for our next steps in life. Despite the large amount of stress caused by this, I worked as hard as I could to stay afloat in my work, make good grades, and continue to participate in activities that I love such as basketball and scouting. Second, it is a point of pride. My dad works day and night around the clock to defend this country, and he is truly inspiring to me. His work ethic has translated over to myself, and this scholarship shows him that I truly have made it throughout high school accomplishing the highest level that I could while still succeeding. Anything that I can do to help lessen the blow of college expenses to him, my mother, and myself means the world to me. Thank you.
