- Baylor Medical Students Association
- Intramural Soccer & Football
- Volunteer at Waco, TX Animal Shelter
- Summer Internship: Dr. Lambert Orthopedic Surgeon

Receiving a Wings Over America scholarship is an incredible honor to me and allows me to pursue the highest level of education. This foundation is such a well-respected and powerful institution, and it is such a great accomplishment for me to receive this scholarship and be included in the rich history of the Wings Over America Foundation. Being presented with such a scholarship in some small way validates my family's constant moves and shows that a life of sacrifice and dedication to one's country has truly developed my character into a person for others. As a pre-med student, I understand that I will have many more years of school after I receive my bachelor's degree. I am truly grateful to have received this four-year scholarship. It has allowed me to seek the highest level of education at Baylor University as I take courses within the honors program. As a University Scholar, I can immerse myself in all aspects of knowledge such as historical texts, medical humanities, and arts in addition to my science program. WOASF has opened many opportunities for me in my undergrad, and I whole-heartedly appreciate everything they do for me and other students.
