This scholarship is about more than winning money, it shows that the scholarship committee sees potential in me. I will forever be grateful for this opportunity. I was working on a local scholarship the night before my acceptance of this scholarship was due. I never saw the email come through when the winners were announced. I had been praying for a way to pay for my college. That prayer had already been answered. I thought, how will I ever thank the people that made this possible. This award will allow me to spend more time mastering my academics to be the best that I can be. I am especially grateful for my father choosing to serve our country and for the Wings Over America Scholarship Foundation for reaching out to help the family members of those who have honorably served our country. You are making a huge difference in all our lives. I cannot find the words to convey how grateful I am to you for selecting me as a 2022 scholarship recipient.
