This scholarship has had an enormous impact on my time at Yale. It gives me the freedom to take unpaid internships without worrying about paying for school. It also allows me to pursue my interests this summer through research and interning in the House of Commons in the U.K. It is an honor to receive support from the Naval Aviation community, which has been the foundation of my father's career and a source of pride for my family. I am especially honored to have received a scholarship in honor of Pratt and Whitney, where my great grandfather worked for many years. I hope to use this scholarship to enable me to take a career in public service so that I can continue my family's tradition of serving this amazing country.
