Major: Economics & Spanish

Academic & Extracurricular Highlights:

- UA Club Field Hockey (Treasurer)
- Honors Action Student Leader
- Culverhouse LIFT Volunteer
- Society for Women in Economics

I am extremely grateful for Wings Over America's continued support. Receiving the Fallen Heroes Scholarship has lifted a tremendous weight off my shoulders as I continue my education. Not having to worry about my finances has given me the opportunity to breathe a little easier as I navigate life as a college student at the University of Alabama. The generosity of the donors has allowed me to focus on my classes and getting involved on campus and in my community. I have been able to participate in clubs relating to my majors and my hobbies and finds ways to get connected with the military community in Tuscaloosa. Being selected for a Wings Over America four-year renewable scholarship feels like having the support of the entire military family. My respect for our armed forces runs deep. I have a profound respect for the sacrifices that service members, as well as their families, make for the safety and security our country. I am so thankful that Wings Over America and their donors recognize these sacrifices and have found a way to show their appreciation. An organization such as this one is truly a blessing.
