Receiving the 2019 scholarship award means a lot to me. Prior to receiving this scholarship, I was using my husband's GI Bill to pay for my college. Therefore, this scholarship award will enable my husband to reserve and transfer the GI Bill to our kid's future education. Also, receiving this scholarship award is going to challenge me to work harder. With this scholarship, I will be able to stay focused and remain committed to my educational goals until I see my dream come true. Lastly, I know that a military organization such as WOASF is supporting military spouses. Thank you and God Bless America.
