I am extremely grateful to receive a Wings Over America Scholarship. I will be attending the Honors College at JMU in the fall. I plan to major in Interdisciplinary Liberal Studies and a minor in Inclusive Early Childhood Education. It is a five-year master's program. My goal is to become an early intervention specialist for children with hearing disabilities. I will be teaching deaf babies and their families American Sign Language, so they can communicate with each other. These generous scholarships will cover half of my tuition as a freshman and I am thrilled and thankful. It is truly an honor to receive this scholarship. I pride myself on my achievements in school, community and I am glad that Wings Over America chose to invest in my future. I am proud to be in a military family. FLY NAVY!
