- Summer Employment: American Energy Swim Club Head Coach
- Year-Round Employment: Nanny

Getting the news that I received the Wings Over America Scholarship was one of the most exciting moments of my life. I have just formally committed to the University of Oklahoma, and with that came the reality of all the costs of college. So, seeing the letter of informing me that I had \$3,400 less to worry about was a phenomenal feeling.

However, the WOA scholarship means more to me than just money. My grandfather, aunt, uncle and step-father all proudly served in the US Navy. I want to continue the tradition of being a part of the US Navy JAG Corps and feel truly blessed to be receiving a scholarship that honors their service. I am so excited to further my education in just a few short months, and I am so thankful to Wings Over America for helping make that possible.
