Reformed University Fellowship: 1<sup>st</sup> Year Supper Club Leader and Intramurals President.

This scholarship, graciously awarded to me by the Wings Over America Scholarship Foundation, has provided my family with a substantial amount of financial relief from the cost of college. As college remains a very expensive investment into my future, many families dread the thought of having to pay for it. Scholarships like this one are a big reason why families can afford college, and this is no insignificant feat. Wings Over America has benefited my family in more ways than one, not only providing me with financial assistance, but also recognizing my hard work as a student in the classroom and as an individual in society. It serves also as a recognition of my father's time spent serving the country, assuring him of the strong community that he is a proud part of. I will be forever grateful for Wings Over America for this scholarship for the next few years to come.
