I am incredibly grateful to have received a scholarship from the Maritime Patrol Association. It is truly rewarding to have my dedication to schoolwork and extra-curricular activities recognized, and to know that my efforts were successful in helping me to decrease some of the financial burden of college. I am so excited by the opportunities this scholarship provides, as I will continue to work diligently and strive to use my time and resources to the best of my ability. I feel lucky to attend a school that I absolutely love and study a major I find fascinating. Not only am I able to pursue my goal of becoming an architect; I am also able to grow and learn with my community by volunteering around campus and prove myself worthy of this recognition.
