Thanks to this scholarship, I will now be able to attend my first-choice college and pursue my degree without having to worry about having to pay for school as much. This scholarship will give me the freedom to further explore my interests while taking full advantage of my education. I am especially grateful to feel the support from the Naval Aviation community, as I have always been proud to be a military brat. I will use this scholarship in preparation for a lifetime of public service, so I can further give back to my country which has given so much to me and my family. Being recognized by WOASF validates all my hard work throughout high school and will encourage to work even harder to achieve my goals and aspirations in college. The cost of college can seem overwhelming and will be a significant challenge for my parents and I; but receiving this scholarship will be a huge help as I start my future at George Washington.
