- Year-Round Employment: Christ Church Nursery

I am very grateful to Wings Over America for this scholarship. It has helped me focus on my schoolwork and make the most of my four years in college. I have been able to spend more time volunteering and being involved in campus activities. Additionally, I intern with UC Berkeley Sports Medicine, spending valuable time furthering my career goals rather than worrying about financial aid. I will also be able to travel abroad in Ireland this summer to study Physics. Thank you to the generous donors and Wings Over America for continuing to award me this scholarship!
