I will be able to pursue a unique and invaluable education in both California and Paris. I will be attending schools that will change my life and me as a person. My passion for mathematics, science, business, and the wonders of knowledge have pushed me to seek support for my journey of personal discovery and connect with students who are ready to change the world. The Wings over America Scholarship is giving me the chance to do so. Overseas, I will be attending the American University of Paris and I will get a taste of international relations and business. When I return to the states I will be going to the University of California in the cultural center of Los Angeles. Thank you for helping me achieve my dreams!
