Wings Over America has given me my first ever scholarship to put towards my college education. I can't imagine a better way to start my journey. This scholarship not only validates and recognizes my hard work as a student, but also honors my father's 25-year service in the Navy and to our great nation. And for that, I am forever grateful. A Wings Over America scholarship will help me take a significant financial burden from my parents and help me to be responsible for my college and career choices. I have been a dependent child since I was born, but plan to leave home for Texas A&M University a confident and independent young woman off to meet her dreams. I plan to study pre-med in the Kinesiology department and then apply for a Doctorate program in Occupational Therapy. This scholarship has helped reassure me that you truly can achieve anything you work hard for. I have worked very hard and will continue to do so as I pursue this degree. Thank you to Wings Over America for helping me in this first step.
