- Volunteer: Rice Harvey Action Team, St. Andrew Episcopal Church-Acolyte and Lay Reader, Eagle Scout
- Summer Employment: Maryland Department of the Environment-Summer Intern, St. Mary's Watershed Association-summer intern.

To me, receiving a 2018 Wings Over America Scholarship means possibility. In the Fall, I will enter my second year at Rice University. I'm studying Civil and Environmental Engineering and my dream is to one day make a meaningful impact on the environment. While a long way away from home, I absolutely love my school and it also has some incredible opportunities. I've sat in lectures with world leaders in environmental science and climate change, gone on a geology trip to Central Texas, and met and connected with several professors who are doing relevant and exciting research that I may have a chance to participate in. College is a major expense, but this scholarship is helping to make my dreams possible. There are many ways I can move forward in my education and I have some difficult choices to make over the next few years. Knowing that there are people out there who support and believe in me gives me the encouragement I need to challenge myself and try new things. I want to thank Wings Over America Scholarship Foundation for selecting me and express my gratitude for their belief in my future. Go Owls!
