- ❖ Year-Round Employment: Peninsula Funeral Home-Funeral Assistant

Being awarded the Wings Over America scholarship will make an important impact on me during my freshman year at college. My goal is to obtain a business degree through Lancaster Bible College. Not only will this scholarship help me in a financial aspect, but it will also allow me to spend more time focusing on academics, athletics and business related extracurricular activities due to the fact I will not be spending all my free time working a full-time job. As I start this new chapter in my life, away from home the first time, I will use this extra time to make connections and friendships among my peers. One way I will do this is through joining the cross-country team. I will use my extra time towards finding valuable business-related opportunities to supplement my education and give me hands on experience. None of this would be available to me without the generous assistance from Wings Over America Scholarship Foundation. Thank you for helping me achieve my goals and each one of you for the honor of receiving this scholarship.
