This scholarship has had an enormous impact on my time at Yale. By covering the cost of attendance, it has made it so I am free to pursue my interests to the fullest without worrying about how I am able to pay. It also has given me the freedom to pursue an unpaid internship this summer in the Dail Eireann, the Irish Parliament. I am deeply honored to have received this support from the Naval Aviation community, which has continuously supported my father and my family for my whole life. I am especially honored to have received a scholarship in honor of Pratt and Whitney, where my great grandfather worked for many years. I plan to use the support this scholarship continues to give me to establish a career in public service in the tradition of my family.
