I am so thankful to have received these scholarship awards from your foundation. It means so much to have been granted this fund and to have been selected as one of the recipients of the 2018 VAW/VRC and WOASF scholarships. With this generous sum, I will be able to further my education at the College of Architecture at Virginia Tech next fall. I am especially interested in finding a career in green architecture which will allow me to design buildings that will minimize damaging effects on the environment. By granting me the VAW/VRC scholarship, WOASF has helped to lower my college finances which allows me to focus more on learning which allows me to focus more on learning and achieving my dreams. Hopefully, I can help students reach their academic goals in the future as WOASF has done for me today.
