I'm incredibly thankful to the Wings Over America Scholarship Foundation for selecting me to receive a scholarship for 2017. Winning this scholarship has reminded me how thankful I am for the US military and the tight community around it. When my father was in the navy as an F-18 pilot, he knew he always had that community looking out for him. Although I'm not in the navy myself, I've felt that same support around my family and me ever since I can remember. With this scholarship, I'll be able to worry less about working to stay financially secure next year, letting me focus more on achieving success in the classroom. I'd like to thank the foundation again for selecting me for this generous award – it's an incredible honor to receive.
