I am ecstatic and at the same time humbled to be a recipient of the Wings Over America Scholarship! This scholarship will provide a foundation for my future studies at Spelman College, the top HBCU, and a community where everyone is devoted to my success. I am eager to start my undergraduate students there as a woman in science, ultimately becoming a pediatric radiologist. My dreams are becoming a reality, thanks to your organization believing in me. As a first-generation college student out of a single parent home, I greatly value the opportunities given to me to achieve a quality education. With the support of my family, friends and now your organization, who have invested in my education and me personally, I am committed to staying motivated, dedicated and focused in achieving my goals.
