Track and Field (Captain), Varsity Volleyball (Captain), Homecoming Court, Volunteer with Valley Rescue Mission and Goodwill, Legal Intern with Johnson & Johnson Family Law Firm, LLC.

I plan on majoring in Political Science at Alabama State University this fall with the hopes of becoming a Family Law Attorney. I really value the fact that I was able to receive this scholarship and I am absolutely honored to do so. The Wings Over America Scholarship will help to ensure that I have what I need for school and will lessen my worries! Given that we are going through hard times right now, especially class of 2020. This scholarship has given me a reason to smile and has also made me more excited about starting my college career. I think what this foundation is doing is great beyond measure dealing with the fact that so many of my peers have dreams of attending college, but sometimes just don't know how they would. I think giving out scholarships such as these, is very admirable and shows people like me that there are people out there that see the good and would love to simply be a blessing to others.
