I am truly honored and so grateful to receive this scholarship. In my eyes, being the recipient of this scholarship allows me to continue the foundation of my education, all while knowing that I am supported in so many ways. The support I have received encourages me to push through any hardships and obstacles I may face in higher education. My goal is to work in healthcare and fulfill my purpose to serve and it means the absolute world that there are people willing to help me reach my goals. The road to my future will be a long and strenuous one, but everything is worth it with the undying support I have received from my friends, family, and donors! I am beyond grateful that I was able to be the recipient of this award and I will prove that I am able to do whatever it takes to be a successful student, determined athlete, and one day hopefully help save lives.
