

Pratt & Whitney Scholar

Justin Orchard-Hays

Virginia Beach, VA

University of Virginia

2021-2022: Freshman

Major: College of Arts & Sciences

I am honored and grateful to be a Wings Over America Scholarship Foundation (WOASF) scholarship recipient. I appreciate all the great men and women who serve, and have served, in our US Navy deployed throughout the world. Their dedication to protecting our country is admirable and I aspire to serve my community with the same honor, courage, and commitment with which they serve our country. The generosity of the WOASF will allow me to pursue my passion to study genetics at the University of Virginia. Genetics has a wide range of applications, from agriculture to medicine, and I hope to one day be part of a research team that designs medicines to treat genetic disorders. I want to thank the generous donors, WOASF, and the incredible US Naval community. Through this amazing scholarship in support of my education, I am looking forward to achieving my career goals and giving back to my community.
