- ❖ Volunteer: American Red Cross-Naval Hospital in Jacksonville), Safe Animal Shelter, Sacred Heart Catholic School Youth Group
- ❖ Summer Employment: Starbuck Barista, Mayo Clinic – Jacksonville
- ❖ Year-Round Employment: Babysitting

Because of the Maritime Patrol Association scholarship, I have been able to pursue an undergraduate education at the University of Florida and prepare for medical education with the stress of money. I am so grateful to have been awarded this scholarship and to know that I have a community of military people backing my endeavors.

I study microbiology and nutritional sciences because I hope to eventually become a doctor, specifically an oncologist. Cancer has impacted countless lives across the globe, and I am to dedicate my life to cancer research and treatment. As John Wooden said, “It’s the little details that are vital. Little things make big things happen in the field of oncology.”
