Alpha Philanthropies, Self-Employed at AP, and ACT tutor.

I am so honored and grateful to have received a 2020 scholarship from Wings Over America. To me, receiving this scholarship is so much more than financial support. It means that an organization bigger than myself believes in me and my abilities enough to invest their resources and inspires me to hold myself to the highest of standards for my future. I can tackle my goals without fear and with the knowledge that I am supported by Wings Over America and all the people who embody this incredible organization. My dreams and aspirations get closer and closer every day and I am tremendously grateful for this scholarship's assistance in getting me there. Thanks to your donations, I will go into my future with excitement and determination. Your generosity, not just towards myself, will ripple through the next generation of students that you have invested in through these scholarship awards. Thank you.
