

# Theodore Roosevelt Association Scholar

Nash Euman

Virginia Beach, VA

Virginia Tech

2021-2022: Junior

Major: Architecture

I want to thank the Wings Over America Scholarship Foundation for choosing me to receive this generous scholarship. I want to also thank the numerous donors of the Theodore Roosevelt Association who make such a scholarship possible. Thank you so much for helping me continue my college journey. I greatly respect this scholarship and see it as an opportunity, an opportunity that I will not waste in college. It means a great deal to me that you have decided to help fulfill my dreams of studying architecture. Architecture has long been my passion, and I thank you for helping this dream become a reality. In addition to helping this dream come true, I must also thank you for helping me against the nightmare that is student debt. I cannot wait to begin my junior year of college in the fall. You have no idea how much your contribution means to me. So once again thank you to the foundation and donors for your contributions which have made this all possible.
