I cannot begin to express how thankful I am to have been selected to receive a 2019 Wings Over America Association Scholarship. I am truly humbled by this honor and this reward will help me to achieve my academic goals and further my education. It's an incredible feeling being recognized for the hard work that I've put in. I am also quite motivated by this honor as well; the fact that I have been selected for this shows that people are paying attention to and are impressed by what I've been doing academically and in my community. It's reassuring to know that others are taking notice and it only makes me want to dedicate myself even more so that I don't let them down. This scholarship takes me one step closer to earning my degree and I will continue to strive for excellence in my studies and extracurriculars and will make the Wings Over America Association proud.
