I am so honored to have received this scholarship. With the help of Wings Over America, I can worry less about paying student loans and fighting off debt when I graduate. I will be able to focus more of my attention on pursuing an even higher education, jump starting my career, and starting my journey towards making the world a better place. This scholarship gives me the freedom to go after my goals instead of settling with a job just to make ends meet. Once I graduate from UCSB, I hope to find ways to use physics to improve my community as well as communities all around the globe. I know how powerful of a tool education can be and how lucky I am to be able to take my own education to the next level. Knowing I am backed with the support of Wings Over America, I am so excited to see where these next few years takes me. I can't wait to update this generous organization on my educational journey and share the positive impact I hope to make along the way. Thank you so much for helping to make my educational dreams a reality!
