Thank you so much for choosing me as a recipient of a Theodore Roosevelt Association scholarship. This financial contribution will help me achieve my goals of attending DigiPen Institute of Technology to work towards my degree in Computer Science and Game Design. It has been a dream to pursue a professional career in video game development and design ever since I was a very young child. Receiving financial assistance from such a prestigious organization will relieve some of the financial stress that comes with a college education. The awarding of this scholarship means that I will be able to focus on my studies, maintain good grades, and pursue my lifelong dream. My acquired knowledge and skills will enable me to make education fun for all ages and create opportunity for people to enjoy their recreational, entertainment and learning experiences through qualify video game and interactive storytelling.
