I am extremely honored to receive the Maritime Patrol Association scholarship. I am very appreciative that I was selected as one of the recipients of this scholarship. By receiving this scholarship, I can financially help my family and myself while attending my college first choice: Clemson University. Receiving this scholarship is validation that hard work does pay off. This scholarship will go a long way to help me achieve my academic and personal goals while continuing my love of learning and giving back to the community. I plan to major in Psychology with a minor in Health Science and attend Physical Therapy School after graduating from Clemson. I am thankful to the Maritime Patrol Association for investing in my future and I will like to thank everyone at WOASF/MPA for their generosity!
