Receiving this scholarship award means the world to me and I am so grateful to be a recipient. I am so thankful to be awarded this renewable scholarship each year as it allows me to decrease the financial burden that college places on so many families in the United States. I believe that education is so powerful, and the more opportunity I have to focus on my studies rather than the financial aspect of college is such a privilege that I am forever thankful for. I am honored to be a recipient of this scholarship as it means that I have amazing support in my academic endeavors, and it pushes me along to continue to achieve greatness so that I can contribute to the healthcare field in the future. This award is one step closer of my dream of becoming a Physician and words cannot express just how much this means to me.
