Major: Comprehensive Science

Academic & Extracurricular Highlights:

- Future Business Leaders of America
- National Honor Society
- Science National Honor Society
- Aria Jefferson Health Volunteer
- St. Mary's Medical Center Volunteer
- Koffmeyers Ice Cream Shop Employee

I am thankful and appreciative that I was given the Wings Across America Foundation Scholarship. The scholarship provides me the opportunity to attend Villanova University, my first choice and dream school. I have selected the University's combined science major, which is their equivalent of a pre-med program. The money provided will allow me to focus on my studies and the demands of the science curriculum instead of stressing out because of the high cost of a college education. My goal is to attend medical school and become a dermatologist. I know full well the challenges this presents including the large financial commitment going forward. The Wings Across America Foundation Scholarship provides me with needed resources and tangible encouragement to keep working toward my goal of one day being in the medical field and helping others.

My Dad's favorite saying is do the before math so you can take care of the aftermath. My parents always talk about the support they feel from the military and now I understand what they meant. I am so thankful for the support of the Wings Across America Foundation and its donors to have recognized my hard work and generously provided me this scholarship. I am truly grateful!
