- ❖ Year-Round Employment: Village Pizza-Dishwasher/Busboy, Anacortes Parks & Recreation Seasonal Referee and Coach

The scholarship is very neat because it allows me to go pursue a career in college that I have a very strong passion for and am very excited to begin. It is very exciting to be recognized for being a military child and for moving around throughout my childhood. Scholarships go a very long way to help pay for all the essentials of post-secondary education which is highly important when pursuing a college education. For me this scholarship money is going to help pay for tuition as well as flight lab fees. I would really like to thank the Wings Over America scholarship committee and the Maritime Patrol Association for giving me this amazing opportunity and helping me begin my career as a pilot.
