I'd like to begin by thanking all those at the Wings Over America Scholarship Foundation and those that have generously donated in order to give the opportunity of a college education to my fellow scholarship recipients and me. Influenced by my love of helping others and chemistry, I knew from a young age that I wanted to pursue a career in pharmacology. This occupation will allow me to fill prescriptions, administer immunizations, and serve my future community in an entirely new way. I'm looking forward to gaining more knowledge of this field this fall at Western Washington University. Because of this scholarship, I know that I will be able to focus more on furthering my education, becoming a better health care provider, and making my time at college worthwhile. Once again, thank you to the Wings Over America Scholarship Foundation, their donors, and the naval aviation community.
