This scholarship from the Wings Over America Scholarship Foundation and the support of all those dedicated to its mission has given me the foundation that I need to fully focus on my education and do the best that I possibly can in pursuing my academic dreams. It enables me to do my best and honor the commitment and contribution of all of those who are a part of the scholarship foundation, including the veterans, the coordinators, and those honored in name or memory by these scholarships. I feel supported by the military and the corresponding community, allowing me to feel more confident in my foundation and surrounded by a community of unwavering support. I will work with my best effort and passion to make the most out of this benevolent scholarship. I am very grateful for this scholarship, as it means that I can continue to put my all into my academics and feel supported by a committed and strong community that is the WOASF and military community.
