- Year-Round Employment: Hot Tuna hostess

I am truly honored to have received a Wings Over America scholarship once again. Transitioning from high school to college can be a trying process, but I am relieved that I have found my home at Virginia Tech. Since last year, I have decided to major in Human Nutrition, Foods, and Exercise, and minor in Psychology, with hopes of becoming an OBGYN in the future. Choosing a career in the medical field is surely intimidating, but with opportunities such as those granted through Wings Over America, I can say that I am confident in my abilities to move forward in my undergraduate education in pursuit of post-graduate school. Involvement in my community has always been important for me, and so through clubs and Greek life, I have been able to get involved on my college campus. I am very excited to see what next year has in store for me as I continue my education at Virginia Tech as a sophomore. Thank you, Wings Over America donors, for encouraging me to persevere through hardships that I may face as a pre-med student. I am very proud to say that I am a Wings Over America 2023 recipient!
