2023-2024: Sophomore

Major: Mechanical Engineering

Academic & Extracurricular Highlights:

- BU Pep Band
- BU Symphonic Chorus
- BU Main Stage Production of Seussical: The Musical at the Tsai Performance Center

I am so thankful to be receiving a 2023 Wings Over America scholarship. I have always had dreams of pursuing my passions in engineering and I am so grateful for the scholarship committee and for the donors that not only support me as a student but help me turn that dream into a reality. In this past year at Boston University, I was not only met with rewarding challenges in my engineering classes and professors specific to my field of study that want to see me succeed, but also with a diverse and committed student population that allowed me to explore a variety of interests and passions outside of engineering. While I love the hands-on engineering experience I find in classes, I also love getting to perform across a range of ensembles including the BU Symphonic Chorus, the BU Pep Band, and the BU On Broadway theater troupe. Having the support of a Wings Over America scholarship has allowed me to focus on my academics and make the most out of my four years in college. I am so appreciative of your investment in my future and I truly can't thank you enough for helping me realize my potential and dreams as a full time student at a prestigious institution.
