Being awarded the Wings Over America Scholarship is a great honor and something that means a lot to me. I am excited to start my college career and this scholarship will help ease some of the anxiousness that I may feel in my first year. The scholarship also feels like an award for my hard work in high school. I took several Advanced Placement courses to better prepare myself for my intended engineering major at James Madison University.

I am the third child that my parents are paying to send to college, so anything that lessens their financial burden is a great help and sources of pride for me. I am thankful for the great efforts of the Wings Over American Foundation.
