- National Honor Society
- Spanish Club: Vice President
- Ikaika Waterman's Academy Coach
- Ikaika Rowing Coach

This scholarship will allow me to pursue my college career as both a Computer Science major at Marist college, as well as an athlete participating on the Marist Men's Rowing Team. The ability to accept this scholarship has highlighted that my achievements are not unseen; that what I have always worked for can be rewarded. Being recruited to Marist College without athletic scholarship means that I receive little no aid as compared to other sports, and it is my understanding that Wings Over America Foundation sees my potential as a student. After trying for this scholarship last year, I was not awarded it; and receiving the award this year tells me that the acceptance has seen my growth. I am excited to keep progressing onward in my studies as well as my career as a college student-athlete. My scholarship award will not be taken for granted, and I intend to keep applying each year to prove myself and show my accomplishments. This acceptance does not only help in my financial areas of supporting college tuition, but it also fills me with great confidence as I progress through these next three years.
