Receiving a Maritime Patrol Association scholarship means a lot to me. The scholarship helps allow me to continue my education to obtain a degree in psychology and get to help people one day. Being a part of a military family has allowed me many amazing opportunities and has shaped who I am today. It also gave me a deep appreciation for those who serve from seeing firsthand how much they sacrifice. Because of this, getting a military specific scholarship is extra meaningful, and I feel very honored to have been chosen.
