Receiving the Wings Over America scholarship for 2024 is an extraordinary honor that will shape my academic and professional journey. As a proud descendant of Naval Aviators, this scholarship symbolizes my family's legacy and empowers me to continue their tradition of excellence.

The Wings Over America Scholarship, made possible by the generosity of your donors, alleviates the financial burden of higher education. This support allows me to concentrate fully on my studies and research opportunities, ensuring I can make the most of my time studying Mechanical Engineering at Northwestern University. Furthermore, as an Eagle Scout and outdoorsman, I look forward to dedicating more time to outdoor activities, further enriching my personal growth and connection to nature.

With this scholarship, I am investing in my education and embracing the values of Honor, Courage, and Commitment instilled by the Navy. I am dedicated to honoring my forefathers' legacy of service to our community, nation, and world, personally and professionally.
