Academic & Extracurricular Highlights:

- UVA Pickleball Tournament Team, Executive Board
- Data Science and Analytics Club
- Intramural Soccer
- Remote Area Medical Club (RAM)
- Volunteer: Habitat for Humanity
- Madison House Medical Services, Volunteer Coordinator

I am honored and humbled to be receiving a Wingman Foundation Memorial scholarship from the Wings Over America Foundation once again. This scholarship will help ease the financial burden of college and will be put towards continuing my education at the University of Virginia, where I am currently pursuing a double major in biology and applied statistics with a minor in data science. Through my time at UVA, I have been introduced to the field of data science, where I hope to merge my passions for biological sciences and statistics into a potential career in biostatistics or another analytical field. This opportunity would not be possible without the backing of the military community and programs such as Wings Over America. Your generous grant will allow me to focus on my academics and spend more time engaging with what UVA has to offer. I appreciate The Wingman Foundation and its donors for their support as I continue my education and strive for future success.
