I am incredibly honored and grateful to be receiving a 2024 Wings Over America Scholarship award. In receiving this scholarship, it not only brings me one step closer to achieving my dream of being a doctor, but it grants me the capacity to share this journey and my successes at American University with this incredible community. This scholarship will allow me to completely dedicate myself to my studies and to being a division one athlete, and therefore I cannot express my gratitude for this award and community enough. Without a doubt, however, I am most honored in receiving this award due to my father's sacrifices for this country. My father along with the rest of the naval aviation community have taught me the true meaning of being a part of something so much greater than yourself. The standards and ethics instilled in me by my father's service have allowed me to become the collegiate-student athlete I am today, so to him I am also truly grateful. Knowing that this community can continue to share in my future achievements is truly a privilege, and I am humbled to take part in the remarkable impact of this foundation.
