It is an honor, as a military dependent, to be receiving a Wings Over America Scholarship. It is so meaningful to what it upholds knowing that I will represent a fellow military family. With this scholarship, I will be able to smoothly transfer into a new school for my Junior year of college, from Mississippi State University to Virginia Tech. I am beyond thankful to be able to receive this scholarship and will uphold myself to the standards of Wings Over America. This scholarship allows me to pursue an education that both challenges me and motivates me. As I major in Elementary Education, I will be able to use this scholarship to receive a prestigious education that will allow me to follow my dreams of teaching further generations. I am so incredibly thankful, for without this scholarship I would not be able to pursue my dreams and be able to encourage the knowledge of future children.
