- Baylor University Swim Club Vice President
- HS Varsity Swim & Gymnastics Team, Captain
- BU Sigma Gamma Epsilon Vice President
- BU Delta Alpha Pi Honor Society
- BU Gymnastics Club
- Co-founder of Ocean Lakes High School SurfRider Foundation Club
- National Science Foundation Research and Lab Asst.

Thank you so much for the tremendous support; receiving the 2024 Wingman Foundation Marine Corps Aviation Memorial scholarship means so much to me and my family. Receiving this scholarship only intensifies the pride I feel towards my family and our connection to the military. From early childhood I've learned to adapt to change due to the mobile lifestyle that comes with being raised in a military family, and to me this scholarship commemorates that. This scholarship recognizes the many sacrifices that military families make. This generous donation allows me to further my education at Baylor University and continue to pursue my passion for Geology and the Earth as I complete my degree in Geosciences. I intend to further my education by attending graduate school for an Earth Science related field, with the hope of achieving a PhD in glaciology. This study is critical in our contemporary scientific setting, and I hope to use this scholarship to learn and give to the field. I am so grateful for The Wingman Foundation for helping me to further my educational endeavors.
