Academic & Extracurricular Highlights:

- Varsity Cross Country Team, Captain
- Varsity Track & Field Team, Captain
- Math National Honor Society, President
- Urban Promise Trenton Volunteer
- TavoTek Biotherapeutics Biologics Research Intern
- Jules Thin Crust Server
- Backpack to School Covenant Church

Thank you, The Wingman Foundation donors, for awarding me the 2024 Marine Corps Aviation Memorial Scholarship. My family and I are incredibly grateful for your generosity and support. This scholarship is helping me to fulfill my dream to attend Princeton University and pursue a degree in Biomechanical Engineering. Princeton has been my top choice school since I was ten years old and toured the campus with my older sister. When I received the news that I had been accepted, I couldn't believe it! Your financial support will not only help to make it possible for me to attend Princeton, but it will also allow me to focus on my course work, athletic endeavors, and volunteer activities, and I am extremely grateful for that. While growing up as the daughter of a Marine pilot was amazing in many ways, I truly appreciate and am honored that this scholarship recognizes the sacrifices families make while their Marine is serving our country. Thank you so much for supporting me and my family!
