The scholarship I have been awarded represents the tremendous backing of the military community, signifying a profound sense of support. I am deeply grateful for the recognition conveyed by this scholarship and express my gratitude for my father's 25 years of dedicated service in the Navy, which has afforded me the opportunity to qualify for this scholarship. Receiving this scholarship will allow me the opportunity to dedicate my time to my internship at the State Legislature's office and continue to contribute to my community through volunteer work. Receiving the Maritime Patrol Association Scholarship is truly a blessing. Being honored with the MPA scholarship has provided me with added inspiration to pursue my bachelor's degree in human development and Family Services at Michigan State University and to remain focused on my goal of applying to law school in the fall. I am deeply appreciative of the dedication and generosity of all the Maritime Patrol Association volunteers and donors, whose efforts make these scholarships possible. Thank you again to the MPA staff for believing in me and allowing me this opportunity.
