- Volunteer: Honors Scholar Shift Community Service

I am so thankful to be receiving a scholarship from The Maritime Patrol Association for the upcoming school year. Receiving a 2024 scholarship means that I can continue to pursue rigorous studies that enhance my knowledge and experiences in life, work, and academics. Because of this opportunity, I am able to pursue my passions in learning about a wide variety of topics, from physical therapy, to business, to Spanish. By pursuing paths in each of these areas, I am becoming more connected to the world and people around me. And I am able to stay involved in campus and community life, as a future orientation leader, Griz club soccer player, and student worker at the Office of Undergraduate Admissions. I feel blessed to be able to prioritize my academics while also having the ability to embrace my extracurriculars and hobbies. Having the support of the Maritime Patrol Association allows me to take on new challenges and make the most out of my time at college. I am incredibly appreciative of this investment in my future, and I am grateful for the many doors that this scholarship opens up for me!
